

Positive Behaviour Management

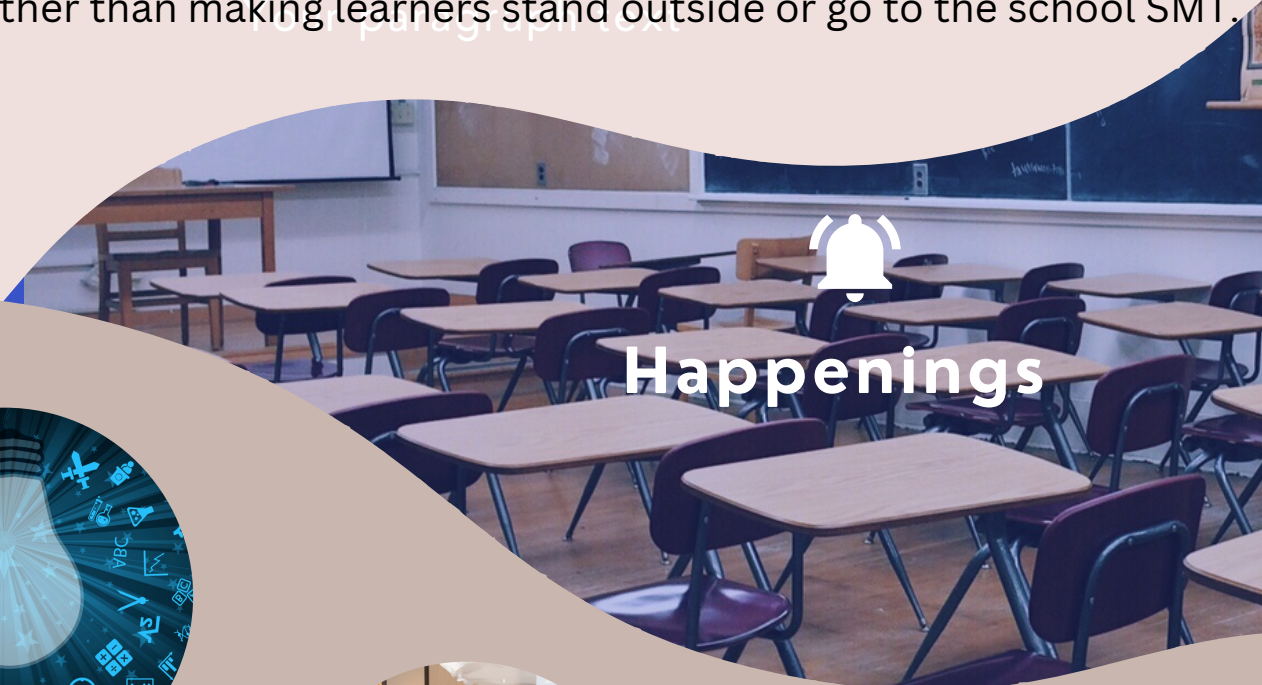

– Brought to you by the team

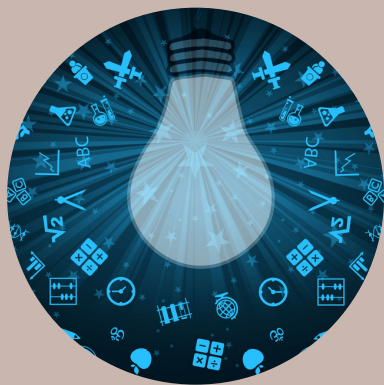

Connection before correction...

Positive Behaviour Management is a training company that has been operating since 2004. We specialise in school discipline and teacher development and run a variety of courses for schools and parents. We work within the Department of Education's guidelines and all our policies are in line with the Schools Act, Circular 74 and the Constitution. We are SACE registered and can award you CPD points for all our workshops. We offer alternatives to corporal punishment, the typical merit/demerit systems and have found our strategies to be very effective because they empower teachers to discipline learners themselves immediately in the classroom rather than making learners stand outside or go to the school SMT.

Happenings

Extensive consultation options available for teachers and SMT

Assertive Discipline Training available

Parent talks and parent guidance on offer.
